Dear Parents,

Fairwold Academy continues to monitor information on COVID-19/coronavirus. As always, we are focused on the health, quality care and safety for all students and staff. We are in compliance with the current advisement from Governor Tom Wolf to close the school for two weeks. Fairwold Academy intends to reopen with normal operations on Monday, March 30.

We are ensuring extra preventive and precautionary measures remain in place based on guidance from the [Centers for Disease Control and Prevention](#) and the [Philadelphia Department of Public Health](#). We are continuing our work to deep clean all of our buildings during this time.

We will continue to keep you updated as we stay close to the evolving COVID-19 situation.

If you have questions, please call or reach out to me directly.

Have a safe and healthy weekend.

Maria
